

Oriental City University Golf Course

Location: Langfang, China

Architect: Yu Gang

Oriental University City (OUC) is a little subdivision in a city call Langfang, 40km south of Beijing. It's the first college town built in China with more than 47 colleges and universities located on 5 km diameter plot of farmland. Surrounding the 47 colleges and universities are six golf courses. This golf course at OUC is Golf Course "A", the private member golf course. There is a tremendous amount of bunkers on each hole, thus making your approach to greens that much more important. If putting is not your thing, you might want to try an easier course.
